Education

UNIVERSITY OF MANAGEMENT AND TECHNOLOGY (UMT)

Lahore, Pakistan

Bachelor of Science in Computer Science

2023 – 2027

- Focusing on software architecture, algorithms, and advanced object-oriented programming.

PUNJAB GROUP OF COLLEGES

Pakistan

Intermediate in Computer Science (ICS)

2021 – 2023

- Built foundational skills in programming, mathematics, and computational logic.

Professional Experience

BIG BRAINS LEARNING

Remote

Software Quality Engineering Intern

August 2026 – Present

- Focused on manual testing, boundary-value analysis, writing test cases, and identifying UI/UX defects for web applications.

LOGITRIX SOLUTIONS

Remote

Graphic Design Intern

August 2026 – Present

- Producing professional brand assets and campaign graphics for ongoing client and product work.

MOINSYSTEMS AI

Remote

Data Research Intern

2026

- Built a structured UAE company database spanning 23 industry categories across Dubai, Abu Dhabi, and Sharjah in a 10-column Excel schema.
- Cleaned and restructured a large prospect-tracker spreadsheet.

DECODELABS

Remote

Web Developer Intern

June – July 2026

- Completed a 1-month virtual Full Stack Development internship focused on web application components and architecture.

AMAL ACADEMY

Lahore, Pakistan

Education startup backed by Stanford University that teaches professional skills to students and corporations.

Career-Prep Fellow

April – July 2026

- Chosen from over 4,500 applicants to participate in a 3-month, Stanford-backed professional development program.
- Committed 150 hours to refining workplace skills—such as complex problem-solving and cross-functional teamwork—to become a more effective and collaborative developer.
- Presented the CapLearn prototype (a bottle-cap learning kit for early-grade children), including pitch deck development and presenter scripting.

FRAG GAMES

Remote

Unity / Game Development Intern

October – December 2025

- Contributed to game development workflows and mechanics using Unity and C#.

Leadership & Community Experience

Lead Graphic Designer | TEDxUMT Society

2026

- Designed clean, minimalist certificates and visual assets for the Society.
- Collaborated closely with fast-moving organizing teams to maintain strict brand consistency and visual identity under tight deadlines.

Graphic Designer | UMT Entrepreneurial Society (UES)

2026

- Managed visual branding and design requests for entrepreneurial events.

- Created professional, impactful graphics to help the society market its programs and professional development opportunities to the student body.

Graphic Designer | UMT Happiness Society

2026

- Developed vibrant, welcoming social media content and digital certificates to promote student well-being, mental health awareness, and community engagement.
- Streamlined the design process to quickly deliver high-quality graphics for frequent, fast-paced campus activities and weekly event announcements.

Key Projects

Bilingual AI Urdu Teaching Assistant (Final Year Project) — Python, Computer Vision, React, Node.js

- AI-powered bilingual (Urdu/English) teaching assistant for under-resourced schools in Pakistan, with facial recognition for student identification, cross-session progress memory, and a 3-portal architecture (Organization, Teacher, Student).

Brain Tumor MRI Classifier — Python, TensorFlow, CNN

- 4-class convolutional neural network distinguishing Glioma, Meningioma, Pituitary Tumor, and No Tumor from MRI medical scans.

MiniLang++ Compiler (CS3045 Compiler Construction) — Python

- Built a complete compiler front-end—lexer, parser, and semantic analyzer—strictly optimized to meet professor-set line-count constraints.

Agentic LinkedIn Automator — Node.js, React.js, Playwright

- UI automation agent engineered for browser-based task execution and content distribution workflows.

NovaPay UI/UX Design — Figma

- End-to-end interface and user experience design for a digital finance application across mobile and web form factors.

Hospital of the Damned & Ball Blast — Unity, C#

- Shipped indie game projects featuring custom character controllers, inventory management, save/load state mechanics, and physics-driven arcade gameplay.

Certifications and Online Courses

- Introduction to Game Design – Epic Games (Coursera), December 2025
- QuickStart: From Algorithm Design to Working Prototype – Higher Education Commission, Pakistan, August 2025
- AI for Everyone – DeepLearning.AI (Coursera), August 2025
- IoT for Everyone – Higher Education Commission, Pakistan, July 2025
- Introduction to Web Development – University of California, Davis (Coursera), July 2025
- JavaScript Bootcamp – LetsUpgrade, May 2025
- DSA with Java Bootcamp – LetsUpgrade, May 2025
- Excel Bootcamp – LetsUpgrade, May 2025
- Microsoft Office Specialist: PowerPoint Associate – Microsoft, January 2023
- Microsoft Office Specialist: Word Associate – Microsoft, December 2022
- Graphic Design – Peak Solutions, January 2022

Additional

- **Technical Skills:** C# (Advanced), Unity Engine (Advanced), Python, TensorFlow, React & Node.js, Git & GitHub, Figma, Graphic Design, Web Development, AI/ML & Automation.
- **Interests:** Indie Game Development, Graphic Design, AI Automation
